Dear Cooper & Walinski Staff,

SCIENCE

TECHNOLOGY

ENGINEERING

MATH

Thank you very much for your kindness and generosity for our children and their families this past Christmas season. It helped so many of our children and their families. The hats and mittens were wonderful! From all of your wonderful hat, glove and mitten donations, we were able to supply all of our fourth, fifth, sixth graders our safety patrol guards and some of our children in the primary grades with hats gloves and mittens that needed them. The Christmas tree was an extra special touch. A wonderful family that has three children that attend our school did not have a Christmas tree and was excited to be able to celebrate with the lit tree. The money was also an extra special touch since it provided that same family with gifts and groceries for the holiday season. Thank you for your continued support to our school and the children we teach. It means more than you know. Wishing you a wonderful 2011!

Sincerely,

Chase STEM Academy Staff
